

Educational Request Form 2008

Classes are four hours in duration and center on learning a specific program or task within a program.

Apple Works contains six individual programs so you would list which program you want a class in. for example, AW Draw. Other Apple applications like iPhoto, Pages, etc. would be examples of other listings. You are welcome to list a non-Apple program, too, others might have it &/or be willing to teach it.

Please give us your top four choices of a desired class

1. _____
2. _____
3. _____
4. _____

Meeting Demos last about 45 minutes. If you would like a specific application or topic demonstrated at a monthly meeting list them here.
